

The Staff

Mr. Ali, the Main Man behind the Silk Road Hotel. After running one of the first internet places in Yazd from 1999 to 2002 and providing a great service to tourists, he renovated the current Silk Road Hotel to what you see today. Although he is the Hotel's co-owner his humility and simplicity is a quality that we all value in him.

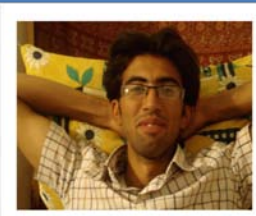

Sebastian, he is the other co-owner. Actually, he is the Dutch ex-Backpacker who fell in love with Iran. So much he came back and invested in the Silk Road Hotel, bringing Western Standards and tourists to Iran. A world away from the Product Manager he once was, he now spends his days entertaining travelers With his four legged friends (Camille the camel and Belle the dog)!

Mohsen; our restaurant manager and the very first man who started his career with Ali. Don't judge him by his belly because he is a true hard working guy! If you have any questions or there is something he can do for you, please don't hesitate to ask him. He will be happy to help you. Although, he may look a lot like Ali, they are not related.

Ali, the hotel's driver. A recent addition to the Silk Road family. He spends most of his time touring the outskirts of the city, but he also helps out in our Kharanagh guesthouse whenever he's free.

Sadegh; the Night Watchman. He studies Political Science at the Open University of Yazd. He stays overnight in the Hotel to save a little money for his tuition. If you have a question during the night, when the other staff is not available, you can find him in the office. He is always happy to wake up for you.

Hamed; the Tour Coordinator who looks after everything you need! At your beck and call, a friendly face with excellent English. If you need something he'll try his best to make it happen. He's a bit of a computer geek although you would never know this as he actually studied in Fine Arts.

Miss Golzar; the hotel chef who works during the day. She'll make you a delicious lunch and also prepares everything for dinner in the evening

Sedegheh is multi-talented. She runs the kitchen in the evening and also takes care of the massages for the ladies. In fact, she loves massaging more than slaving over a hot stove!
